

Smart Office Document Assistant — Large Document Test

This file was generated to test the 'large document' scenario required in Section 11 of the assignment: the pipeline must either process a large document successfully within the agreed time budget, or fail with a clear, readable error message.

Section 1: Departmental Activity Report

Facilities management completed scheduled maintenance across two office locations. The finance department flagged three invoices for manual reconciliation this cycle. Vendor performance was reviewed against the service level agreements signed in Q1. This quarterly report summarizes procurement activity across all regional offices. Facilities management completed scheduled maintenance across two office locations. Human resources onboarded several new employees across the sales and support teams.
